

# Unique 2.1 hazer

## Laser Display Accessories

Max. output:	1.5kW
Control:	Manual or DMX
Run-time:	up to 50 hours continuously using only 2 litres of fluid
Facts:	60s warm up time, variable output of fan and pump, low noise, internal timer, haze density control
Weight:	8.7kg without fluid canister

This Unique 2.1 haze machine is great little 1.5kW hard worker. It produces very fine haze that hangs in the air for much longer than normal smoke from smoke machines. It is very economical and it uses water based haze fluid that will leave the venues without sticky floors after the party. It can be controlled manually or through DMX.
