

Rain cover X14

Laser Display Accessories

This "coat" was made to protect your KVANT **Atom** or **Spectrum** laser from any kind of wet weather. It can be installed in seconds and is held securely so it doesn't get blown away in the wind. It is beautifully manufactured from tough and tear resistant materials.

Type X14 is compatible with pre-2019 Atom 20, Atom LD 20 and all 2014-2017 Spectrum systems.
