

Atom 20

Laser Display Systems

Type:	full colour semiconductor diode laser system
Guaranteed optical output:	20W
Suitable for:	outdoor laser displays and laser graphics
System control:	inbuilt Pangolin FB-MAX QS with network switch, Pangolin QuickShow 4.0 laser control and creation software is included [upgrade to Beyond is available]
Control signal:	ILDA, Ethernet, ArtNet and SD card
Scanning system:	CT6215 30kpps @ 8° [see Options below]
Safety:	fully complies with the latest EN 60825-1, FDA regulations and TUV Laser Safety
Weight:	30.5kg
Includes:	heavy duty flight case, power lead, 25M ILDA signal cable, E-STOP remote with 25M cable, set of 4 safety keys, interlock connector, CD with PDF manual.
R G B [mW]:	6000 3600 11500
Beam size [mm]:	5.5x5.5
Beam divergence	<1mrad [full angle]
Modulation:	analog, up to 100kHz
Power requirements:	100-230V/50Hz
Consumption:	max. 500VA
Operation temperature:	10-35°C
Ingress protection rating:	IP54
System features:	All the basic control settings such as X & Y sizes, scan-fail safety settings etc. are adjusted digitally using inbuilt interface. This systems also features scanning system protection and daisy chain of emergency STOP signal for multiple system "one-hit" operation.
Integrated laser safety features:	Keyed interlock, emission delay, magnetic interlock, scan-fail safety, V-RAD 506 mechanical shutter reaction time <20ms, adjustable aperture masking plate.

We officially launched our first semiconductor diode laser system back in 2011 in Birmingham, UK. Today's Atom series combines modern semiconductor diode laser technology with battlefield proven design and FB4 controller. Our Atoms already showed their potential in power demanding applications whilst we manage to keep the purchase costs at a reasonable level.

KVANT Atom 20 is our most powerful pure diode laser system designed for large outdoor venues for thousands of people. This robust system is built to last and it's suitable for touring as well as hire.

KVANT Atom can be controlled directly from most major lighting desks over the ArtNet.
